NOTE - Vimeo files are straightforwardly downloadable and free to use. <https://www.youtube.com/@StillingVideoEco> also has links to most Stilling videos.

Format: The majority of files are moderate widescreen: work well on zoom and in a church projection situation. Picture quality at 1080p is adequate for most large screen use, and although some are 4k, you may find 720p enough,
***If you're interested in something as yet only on YouTube, get in touch: I can either do a new version or put it on Vimeo. Contact chaplain@ecocongregationscotland.org for this or any other query.

The COP clips

Thanks to some good groundwork by a colleague, EcoChaplain David Coleman was privileged to gain access as an 'observer' to the 'Blue Zone' of COP26 in Glasgow. He was also able to move around the city by bike, dropping in now and then at the EcoCongregation Scotland Hub in Govan Linthouse church, the churches Hub at the Salvation Army, and various other locations including Glasgow Cathedral, which hosted a number of events during the days of the Conference. This page gives a few almost random video 'snapshots' of that experience.

Prayer for each day of COP [YOUTUBE](#)

Climate March: Faith Bloc [YOUTUBE](#) [VIMEO](#)

The huge march of celebration of COP. I was with the 'faith bloc' which got rather holed up in a wet muddy park before we got going. The marshalling strategies in one way kept the different groupings from mixing as they night, but it was a full day, a joyful day and an encouraging day...

Save the bear : Follow-up: I spotted the Polar Bear from the Cycle Bloc of the march with a group of cycling protestors a day or so later: [YOUTUBE](#)

Biblical Blurb: musings on Psalm 8. Who are the 'voices of the disregarded' who speak the Word of God. Things also reminiscent of the 'steward of unjust wealth' Luke 16 (not the 'unjust steward') - is it possible, by re-stating values, to mobilise even capitalism on the side of conservation? [YOUTUBE](#)

The Radical voice - music used for Advent calendars- protest chant by Canadian indigenous women [VIMEO](#)

Blue Zone Prayer

There was a less formal space for reflection and meeting in the Blue Zone. Each morning at eight, it appeared, some folk from the World Council of Churches and other faith organisations met [YOUTUBE](#)...

Confrontation

COP does bring people together - and sometimes allows confrontations like this between a woman from the indigenous peoples and a man from the more 'official' side of how Brazil relates to the climate and biodiversity crises. [YOUTUBE](#)

To till and Keep: YOUTUBE

Early each morning, the gardener came in to tend - to till and keep- the garden of the letters of COP 26 in the Action Zone,. I had the pleasure of saying hello.

“All these people here to help”. YOUTUBE

Realising on the first day: COP really is an attempt by nations and NGOs and more, to do something for the common good. approach it with goodwill, and see what can be built on it!

**Time for Reflection: Scottish Parliament in COP
YOUTUBE**

During COP I was able to offer, 'remotely' the 'Time for Reflection' slot for the Scottish Parliament. The Liberal Democrats' leader later came up out of the blue, and spoke about it in the Blue Zone. He said he 'remembered the shirt'. I actually recorded the talk in a cupboard overlooking the parliament chamber. Look out in the long set at the beginning, for the figures of 'the people'

“Transition is a must, but transition must be just. “Transition will not be possible without being conducted in an openly and obviously just way.... Which is also a problem where there is populist misinformation, misleading the people. [YOUTUBE](#)
