

NOT NATURAL....

Today, the increasing numbers of unnatural fires are a sign of the devastating effects that climate change has on the most vulnerable of our planet.

Human greed, drought and land misuse lead to the breakdown of ecosystems, the destruction of habitats, and the loss of livelihoods and species, at an alarming rate. Creation cries out as forests crackle, animals flee, and people are forced to migrate due to the fires of injustice that we have caused.

*All: Give us, Lord, we pray,
respect for the Earth,
renew within us Lord,
a sense of their worth.*

*From a Creation Prayer Service at St Ninian's RC,
